DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-3,17,18,43 and 44 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

2. Claim 1 recites the limitation "**said database**" in line 9. There is insufficient antecedent basis for this limitation in the claim. Claim 1, line 3, recites **a database listing** which is not a database and claim 1, line 5 recites **plurality of databases**. It is unclear to the Examiner as to which database the queries of the data entry window being passed to.

3. Claim 35 recites the limitation "a database" in line 2 and also "a database" in line 3. It is unclear whether or not a database in line 2 is different from a database in line 3.

4. Claim 35 recites the limitation "an identification" in line 8 and also "an identification" in line 9. It is unclear whether or not an identification in line 8 is different from an identification in line 9.

Claims 2, 3, 17, 18, 36-42, 43 and 44 are rejected for fully incorporating the deficiencies of their respective base claims by dependency.

Drawings

5. The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, the limitations of claims 1, 4, 19, 30, 32, 34, and 35 must be shown or the feature(s) canceled from the claim(s). No new matter should be entered.

Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.
